Sir:

This is in response to the Office Action mailed June 21, 2002, and having a period for response set to expire on September 21, 2002.

The following amendments and remarks are respectfully submitted. Reconsideration of the claims is respectfully requested.

IN THE CLAIMS:

~~F 1. Sub 1.~~ (SIX TIMES AMENDED) An information fragments editing system for executing an application program for obtaining information from an external application program to show the obtained information as an information object, comprising:

a unit for displaying, on a window displaying information controlled by an external application program, a transparent window through which contents of the information controlled by the external application program is seen, said transparent window having a position and size being a same position and a same size as said window;

an information storing unit storing contents and attribute information of an information object to be shown, the attribute information being concerned with showing the information
